Champion Aqua-Vent® waterproof, windproof and breathable fabric

Champion Aqua-Vent features a hydrophilic coating which allows perspiration moisture to escape. This ensures the discomfort associated with condensation build up is prevented – allowing a comfortable body heat to be maintained while still giving the wearer a level of waterproofing that is appreciated when the weather is less than kind.

Champion Aqua-Vent gives the wearer a garment that combines all of this with durability that protects against the demands made by today’s outdoor enthusiast – whatever your choice of pursuit.

Waterproof and breathable technology

A hydrophilic coating is directly applied to Aqua-Vent fabric providing a solid barrier capable of absorbing vapour and passing it through its infrastructure. Condensation is therefore reduced enabling you to stay dry and comfortable whatever your activity.

Keep Dry

Durable coated fabric with waterproof taped seams and windproof properties.

Water Repellent

Fabric treated with water repellent properties.
