

A man with dark, wavy hair and a beard is shown in profile, looking towards the left. He is wearing a short-sleeved, button-down shirt with a blue, white, and red checkered pattern, tucked into dark blue jeans with a black belt. The background is a blurred outdoor setting with green foliage and a body of water.

**Keep Dry**  
Durable coated fabric with waterproof taped seams and windproof properties.

**Water repellent**  
Fabric treated with water repellent properties.

**Champion Aqua-Vent®**  
waterproof, windproof and breathable fabric

Champion Aqua-Vent features a hydrophilic coating which allows perspiration moisture to escape.

This ensures the discomfort associated with condensation build up is prevented – allowing a comfortable body heat to be maintained while still giving the wearer a level of waterproofing that is appreciated when the weather is less than kind.

Champion Aqua-Vent gives the wearer a garment that combines all of this with durability that protects against the demands made by today's outdoor enthusiast – whatever your choice of pursuit.

### Waterproof and breathable technology

A hydrophilic coating is directly applied to Aqua-Vent fabric providing a solid barrier capable of absorbing vapour and passing it through its infrastructure. Condensation is therefore reduced enabling you to stay dry and comfortable whatever your activity.
